

AERONS (INDIA)

SUB 18X2

POWER PACKED DUAL 18" SUBWOOFER SYSTEM

HARD

BASS

The SUB 18X2 is a very high-output, high power bass reflex subwoofer. The SUB 18X2 subwoofer produces the greatest low-frequency impact and performance Aerons has ever developed. It is truly a state-of-the-art compact cabinet that delivers more LF output in a smaller footprint than other subwoofers available today. The system is equipped with two advanced, hypervented 18" Aerons woofers mounted in a bass reflex configuration. The cabinet design is optimised to achieve tight and maximised output. Each 18" features massive vented magnets and 4.5" copper voice coil and represents the state of the art of transducers technology. The system is able to produce a Max SPL of 140 dB and handles 3000 Watts RMS. The cabinet features two 4-pole Speakon connectors. A pole mount adaptor is provided on the top of the cabinet

KEY FEATURES

- High-output, high-impact dual 18" subwoofer system
- 140 dB maximum sound pressure level
- Power handling: 3000 W RMS
- Response down to 35 Hz
- Super-high-output woofers for low distortion at extremely high SPLs
- High quality plywood with wear resistant and waterproof polyurea paint
- Protective metal grille, polyester fabric coated
- Extra textured anti-scratch paint finish.

Technical Specifications

Design	Bass Reflex Dual 18" Subwoofer System
Components	2x18" (460mm)/4.5" Voice Coil LF
Power (RMS)	1500W+1500W
Max Power	6000W+6000W
Sensitivity	103dB
Impedance	8 ohms + 8 ohms
Max SPL	140dB
Frequency Response	35Hz-300Hz
Connector	2x 4-pole SpeakON
Connections	+1-1: Speaker-1, +2-2: Speaker-2
Dimensions	1180 x 560 x 780mm
Weight	89 KGS
